

NATIONAL PORTS ADMINISTRATION ENVIRONMENTAL POLICY DECLARATION

The National Port Administration acknowledges among its environmental principles, the responsibilities towards the prevention and preservation of the Environment, and therefore commits itself to:

- 1) Adopt, document, implement and sustain the necessary measures for minimizing the environmental impacts that may occur during the execution of port operations.
- 2) Establish goals and objectives that tend to maintain the improvement of environmental conditions.
- 3) Register all activities defined in integration processes that may act as indicators of environmental performance.
- 4) Obey and carefully monitor the respect for environmental legal aspects rules and procedures, within the A.N.P. as well as in areas granted to concessionaires, that avoid damaging effects regarding the environment, influencing directly on the prevention of contamination, as well as in the protection of people, companies and the whole Port community in general.
- 5) Establish the communication channels necessities to inform the personnel, providers, concessionaires, and Society in general about the procedures and standards adopted.
